

SZKŁO HARTOWANE SPIGEN GLASS FC IPHONE X / XS / 11 PRO BLACK

Product code: 8809613767278-063GL25234

EAN: 8809613767278

Crystal clear tempered glass with the widest possible cutout dedicated to cases. The Glass FC perfectly reproduces displayed colors and does not affect touch sensitivity. It is made of recycled and strengthened tempered glass with a thickness of 0.3 mm. It has a surface hardness (resistance level) of 9H, making it extremely resistant to scratches even when in contact with sharp objects (knife, keys). Additionally, it is coated with a special nano layer that protects the screen from leaving fingerprints or other contaminants. Glass FC perfectly protects the valuable screen during extreme falls. Installation is extremely easy and accessible to every user.

* The glass has the widest possible Case Friendly cutout, meaning it will be compatible with most cases on the market and with every Spigen case.

** Due to the various edge milling of displays, after installing the protective film/glass on the screen, a delicate air halo may form around the screen. This is a natural situation and depends on the screen itself.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it will not interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can position it using two strips of tape, sticking them to the side of the device.
- 4) Remove air bubbles by pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
