

TECH-PROTECT UWC7 UNIVERSAL WATERPROOF CASE 6.9 INCH BLACK

Product code: 6216990212710

EAN: 6216990212710

Universal waterproof case that is perfect for unusual holiday situations.

The case has received an IPX8 waterproof certification, confirming safe submersion of the device inside the case up to 20 meters deep.

The universal size of the case fits devices up to 6.9 inches.

The design of the case has been created to ensure that the smartphone remains protected from the effects of flooding or sinking even in the most unusual situations.

Additionally, the set includes a lanyard, allowing you to hang the smartphone around your neck or wrist, keeping the phone close at hand.

The case is made of flexible, soft material that does not interfere with comfortable phone use.

The Tech-Protect case is perfect as protection against dirt from sand or water damage. It is an indispensable gadget during summer relaxation, allowing safe phone use in difficult conditions, and enabling you to capture wonderful moments with photos and videos in unusual holiday situations.

- * Underwater, most devices have limited touch due to pressure, so when taking photos, it is best to use shortcut keys.
- ** The fingerprint reader may not function due to the thick walls.
- *** Before use, verify the product's tightness by placing paper inside and then submerging the case in a bowl for at least 20 minutes.
