# SZKŁO HARTOWANE SPIGEN GLAS.TR SLIM IPHONE 13 PRO MAX / 14 PLUS / 15 PLUS CLEAR

Product code: 8809811851199-AGL03382

EAN: 8809811851199

Crystal clear tempered glass that perfectly reproduces displayed colors and does not affect touch sensitivity. It is made of recycled and reinforced tempered glass with a thickness of 0.2mm. It has a surface hardness (resistance level) of 9H, making it extremely resistant to scratches even when in contact with sharp objects (knife, keys). Additionally, it is coated with a special nano layer that protects the screen from fingerprints or other contaminants. Glas.TR perfectly protects the valuable screen during extreme falls. Installation is extremely easy and accessible to every user.

- \* The glass/film is cut only for the flat part of the display with a protruding structure, according to and based on the die prepared by the manufacturer of the specific phone model. Only such cutting of the film/glass will ensure complete compatibility with our protective accessories.
- \*\* Due to the various milling of display edges, after installing the protective film/glass on the screen, a delicate air halo may form around the screen. This is a natural situation and depends on the screen itself.

#### INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower the steam will absorb all the dust from the atmosphere and it will not interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible you can position it using two strips of tape, sticking them to the side of the device.
- 4) Remove air bubbles by firmly pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
