A case that combines minimalist design and top-level protection. Made of durable and flexible TPU material that securely surrounds the entire device in such a way as to provide excellent grip. Additionally, complemented by a strong polycarbonate panel that protects against scratches. The product is perfectly fitted, fully functional, does not restrict access to external ports, and effectively protects the phone during falls. Ultra Hybrid is the ideal protective solution while maintaining minimal weight and thickness! The added kickstand not only affects the design but also enhances user comfort, for example, while watching movies.

Ultra Hybrid has undergone performance testing and received MIL STD 810G-516.6 certification, which means it has fallen 26 times from a height of 2 meters.
