

TECH-PROTECT ROUGH CHAIN APPLE AIRTAG 1 / 2 BLACK

Product code: 9589046926228

EAN: 9589046926228

The functional and reliable keychain from Tech-Protect is a great protective proposal for every Apple Airtag user.

Rough combines a soft and flexible TPU case with a wear-resistant cord that you can attach to keys, luggage, or other important items.

Raised edges will protect the locator from scratches, and thanks to its open design, it does not cover the speakers, providing access to the full and strong signal sent by the device.

Easy to install - installation based on "twist-and-lock".
