

TECH-PROTECT CC45W 2-PORT CAR CHARGER PD 45W / QC3.0 BLACK

Product code: 9490713931707

EAN: 9490713931707

The Tech-Protect CC45W is a dual-port car charger equipped with sockets with a total power of 45W. One of the ports is a standard USB-A with QuickCharge 3.0 fast charging, while the other is a USB Type-C with PowerDelivery technology implemented.

This reliable accessory will provide fast, convenient, and above all, safe energy renewal even for several devices simultaneously.

The compact plug is made of lightweight and durable aluminum and polycarbonate, making it handy and resistant to impacts. Thanks to its compact design, it does not take up much space in the car and is easy to store.

The advanced energy control system manages the safe distribution of current and voltage division to each port, eliminating the risk of damaging the charged device.
