

TECH-PROTECT L03S BLUETOOTH SELFIE STICK TRIPOD BLACK

Product code: 9490713934463

EAN: 9490713934463

Tech-Protect L03S is a selfie stick that combines durability, stability, and multifunctionality, providing excellent shots while taking photos or vlogging. Take it wherever you want, just twist, unfold, and you can start taking selfies. This accessory also serves as a portable tripod.

Thanks to its telescopic design, the height of the stick can be freely adjusted up to 148cm. When folded, it measures about 30cm.

The movable head (180°) allows you to position your smartphone both vertically and horizontally. The 360° rotating grip holds the phone very tightly, allowing you to take pictures from any angle, and the ergonomic shape makes the L03S very comfortable to hold.

The aluminum construction guarantees not only durability and greater lightness but also excellent stability of the mount. The grip legs and the bottom of the feet are equipped with non-slip silicone pads, ensuring stability on any surface.

The manufacturer has included a practical Bluetooth remote with a range of up to 12 meters, which can be mounted to the tripod.
