

SZKŁO HARTOWANE SPIGEN ALM GLASS FC 2-PACK IPHONE 15 BLACK

Product code: 8809896752275-AGL06906

EAN: 8809896752275

Tempered glass with a revolutionary installation method - if you have been intimidated by this aspect of using tempered glass until now, your problems have just been solved!

The tempered glass from the AlignMaster series by Spigen is secured with a perfectly cut mounting frame for the front of the phone, allowing you to position it perfectly on the screen. The manufacturer has simplified the installation process to such an extent that it is fully intuitive for every user.

Glass FC AlignMaster is a product perfectly matched to your device's display.

Full Cover, also alternately called Case Friendly, means that the glass is cut in such a way that it will not be snagged by a case, preventing accidental peeling off of the glass.

The tempered glass with a thickness of 0.3mm has a surface hardness of 9H, which is nearly the maximum score for scratch resistance that can be achieved.

An additional oleophobic coating prevents excessive fingerprints or other contaminants, as well as protects against additional scratches.

The minimalist design with precise cutouts and crystal clarity provides an amazing immersion with the device, making it easy to forget that we have glass on it that gives us additional protection.

See how to install:

https://www.youtube.com/watch?v=1Au-ERS_sXo&ab_channel=FlavourDesign

* The glass has the widest possible Case Friendly cutout, meaning it will be compatible with most cases on the market and with every case from Spigen.

** Due to the diverse edge milling of displays, a delicate air halo may form around the screen after installing the protective film/glass. This is a natural situation and depends on the screen itself.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Apply the positioning frame to the front of the phone

4) Stick the glass and get rid of air bubbles by pressing the whole thing firmly in circular motions for several dozen seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Hardness 9H
- 2.5D beveled edges that feel nice to the touch
- Additional oleophobic layer
- Ideal clarity
- Does not affect touch functionality
- Dimensions:

SET INCLUDES:

- 2 x Spigen Glass FC AlignMaster
