

FOLIA OCHRONNA WHITESTONE DOME UV GEN FILM 2-PACK GOOGLE PIXEL 8 PRO CLEAR

Product code: 8809365409020

EAN: 8809365409020

The multi-layered, transparent Whitestone Dome UV Gen film perfectly protects your smartphone's screen. Precisely made, it beautifully reproduces displayed colors and, above all, does not affect touch sensitivity.

Made from several layers, the film effectively protects the screen from scratches and damage. Despite its multi-layer nature, it is extremely thin, and thanks to the oleophobic coating, it additionally protects the screen from leaving fingerprints.

The innovative installation method involves curing the film with ultraviolet light, achieving the perfect effect of smoothness, clarity, and responsiveness on the screen. Installation is easy and enjoyable for the user.

Check how to install: https://www.youtube.com/watch?v=TH3deAS96qc&t=123s&ab_channel=WhitestoneDome

* We do not recommend using the film without any case.

** The installation has been simplified to the maximum, but remember to read the instructions and watch the instructional video before installation and follow all steps outlined by the manufacturer; only in this way will you achieve 100% satisfaction.

*** The film leaves no residue on the screen after removal.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as you can, using the instructional video as a guide.
- 4) Using a UV lamp, cure the film in five places for 15 seconds each.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging

- Provides effective protection
- Full touch sensitivity
- High-quality oleophobic coating
- Dimensions:

SET INCLUDES:

2 x Whitestone Display Film

1 x UV Lamp

1 x Installation Kit
