Product code: 5906203691876

EAN: 5906203691876

Tech-Protect Supreme, the indispensable protective set, secures the screen and lens of your device during everyday use.

The tempered glass for the display is made of lightweight and milled glass with a thickness of 0.3mm and a hardness level of 9H. The crystal-clear glass ensures image clarity, ideal color saturation reproduction, and does not interfere with touch sensitivity. Additionally, it is coated with a high-quality oleophobic layer that minimizes the amount of fingerprints or other contaminants left behind.

The protective lens cover is made of high-quality tempered glass with a hardness of 9H. Precisely cut, it provides protection against scratches and breakage. A unique advantage is the simple installation, accessible to everyone, even inexperienced users.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as you can - you can reposition it using two strips of tape, sticking them to the side of the device.
- 4) Remove air bubbles by pressing the entire surface with circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
