

SZKŁO HARTOWANE HOFI GLASS PRO+ XIAOMI REDMI WATCH 4 CLEAR

Product code: 5906302300457

EAN: 5906302300457

Crystal clear tempered glass that perfectly reproduces displayed colors and does not affect touch sensitivity. It is made of lightweight and milled glass with a thickness of 0.26 mm. It has a surface hardness (resistance level) of 9H, making it extremely resistant to scratches even when in contact with sharp objects (knife, keys). Additionally, it is coated with an oleophobic layer that minimizes fingerprints or other contaminants. Hofi Pro+ perfectly protects the valuable screen during extreme falls. Installation is incredibly easy and accessible to every user.

* The glass/film is cut only for the flat part of the display with a protruding structure, according to and based on the die prepared by the manufacturer of the specific phone model. Only such cutting of the film/glass will ensure complete compatibility with our protective accessories.

** Due to the various milling of the display edges, after installing the protective film/glass on the screen, a delicate air halo may form around the screen! This is a natural situation and depends on the screen itself.

*** Product images are for reference; depending on the dimensions, the glass may be packaged in different packaging.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a bath - the steam will absorb all the dust from the atmosphere and it will not interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can position it using two strips of tape, sticking them to the side of the device.
- 4) Get rid of air bubbles by pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
