

SZKŁO HARTOWANE RINGKE EASY SLIDE 2-PACK GALAXY S24 ULTRA CLEAR

Product code: 8809961785412

EAN: 8809961785412

Crystal clear Easy Slide tempered glass from Ringke perfectly reproduces displayed colors and does not affect touch sensitivity.

Made from recycled and reinforced tempered glass. The high hardness level (9H) makes Easy Slide resistant to scratches even when in contact with sharp objects (knife or keys).

The glass is coated with a special oleophobic layer, which minimizes the aspect of leaving fingerprints or other contaminants on the surface of the glass.

Easy Slide is particularly dedicated to protecting the screen from scratches as well as impacts resulting from unexpected drops of the phone.

Additionally, to ensure easy installation, the Easy Slide installation tool is included in the set, making the application of the glass simpler and more precise.

* The glass has the widest possible Case Friendly cutout, which means it will be compatible with most cases on the market and with every Ringke case.

** Due to the various edge milling of displays, a delicate air halo may form around the screen after installing the protective film/glass. This is a natural situation and depends on the screen itself.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can position it using the positioning frame included in the set.
- 4) Remove air bubbles by pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
