VIDVIE BT873 HEADPHONES

Headphones from Vidvie with a wireless charging case.

The headphone case is used to store them and to recharge the headphones when their battery runs out.

The in-ear design ensures comfortable use and high sound quality.

The headphones are controlled by touch, via a pressure sensor located at the base of the headphones.

The headphones connect to the device after removing them from the charging case.

Detailed information on use can be found in the manual.
