

TECH-PROTECT MM15W-V7 Q12 MAGNETIC MAGSAFE DASHBOARD & VENT CAR MOUNT WIRELESS CHARGER 15W BLACK

Product code: 5906302375899

EAN: 5906302375899

The designer car mount Tech-Protect MM15W-V6 Q12 is equipped with the ability to charge Apple devices with MagSafe technology at a maximum power of 15W. It features a sturdy, adjustable-length arm that, combined with a rotating head, allows for perfect adjustment and excellent user comfort.

The built-in strong magnet securely holds your smartphone even in the toughest conditions. Additionally, the accessory allows for using the phone in both vertical and horizontal positions, enabling individual adjustment of the device to your needs.

The high quality of ABS and PC components guarantees long-lasting use.

Installation is extremely simple; just degrease the area where you want to attach the mount, tighten the lever, and you're done!

To maintain the sticky properties of the suction cup, it should be washed under running water before reinstallation.

The additional tip allows for mounting the MM15W-V6 to any vent in the car.

* The MagSafe magnetic function works only directly with the phone or with a case that has a built-in magnetic eye for MagSafe use.
