Product code: 5906302375448

EAN: 5906302375448

Are you looking for a charger that will replace all others?

DC80W-GAN is a multi-port charging station that will work in any situation! All thanks to 6 ports, including 4 USB-C ports and 2 USB-A ports. The total power is 80W! It's like having 6 high-power chargers in one device! No more tangled cables and mess on your desk – with this product, you'll keep everything organized.

Equipped with a high-resolution digital display, the charger allows easy tracking of the current charging status. No more worries about slow charging – now you always have full control over the process.

The charging station has numerous safety certifications. We ensured complete safety with multiple layers of protection, including overheat, surge, overload, and short-circuit protection. With us, your devices are safe! Thanks to the latest Gallium Nitride (GaN) technology, the charger reduces energy and heat loss by 30%, ensuring a stable temperature even under full load. This means not only faster charging but also more energy-efficient.

DC80W-GAN supports multiple fast charging protocols, such as PD3.0, PPS, QC3.0, and others. This allows you to safely and quickly charge almost all laptops, smartphones, tablets, and other USB devices.
