Product code: 5906302361236

EAN: 5906302361236

The Tech-Protect Glass Fit+ tempered glass is a high-quality protective accessory made from lightweight and precisely milled glass with a thickness of just 0.3mm.

The perfectly fitted design fully preserves the sensitivity of the touchscreen. The manufacturer rates its hardness level at 9H on a ten-point scale, which translates to exceptional scratch resistance during everyday use.

The glass features crystal clarity, ensuring that natural colors and sharpness of the display are maintained. An additional advantage is the special oleophobic coating, which effectively minimizes the accumulation of fingerprints and other contaminants on the glass surface, making it easier to keep clean.

* The glass is compatible with most cases available on the market.

** Due to the various milling of display edges, a slight air halo may form around the screen after installing the protective film/glass on the display! This is a natural situation and depends on the milling of the screen in the specific unit.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can reposition it using two small pieces, sticking them to the side of the device.
- 4) Remove air bubbles by pressing down firmly in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
