

TECH-PROTECT HB06 HUB ADAPTER 8IN1 TYPE-C + USB2.0 + USB3.0 + SD/TF + AV3.5 SPACE GREY

Product code: 5906302360550

EAN: 5906302360550

Tech-Protect HB06 HUB Adapter 9in1 is a compact, multifunctional device suitable for all computers with a USB-C port. Thanks to its sturdy aluminum and ABS construction, the adapter is lightweight yet resistant to damage and durable. The device is equipped with five ports that offer various functions.

The adapter features four USB-A ports with different speeds: two USB 2.0 ports allowing data transmission speeds of up to 480 Mb/s and two USB 3.0 ports providing fast transfer up to 5 Gb/s. The device has one USB-C port designated for data transmission. The adapter is equipped with a 3.5 mm audio output for connecting headphones or speakers and an RJ45 Ethernet port for wired network communication. Additionally, it includes a card reader that supports both SD and TF (microSD) formats.

Tech-Protect HB06 HUB Adapter 9in1 is a flexible and versatile device that, due to its multifunctionality and efficiency, is an excellent solution for those in need of a reliable adapter for charging and data synchronization.

* The USB-C port is only used as a by-pass for charging the device to which the HUB is connected (laptop, smartphone). It does not support data transmission.

PRODUCT FEATURES:
