

SUPCASE UB XT MAG MAGSAFE IPHONE 16E GULDAN

Product code: 843439157064

EAN: 843439157064

The case from the Unicorn Beetle XT MagSafe series by Supcase is one of the most durable products in our entire range.

The armor wrapping around the device from the back and edges - made of a blend of soft thermoplastic and a hardening polycarbonate shell, gives it very high durability. The case is equipped with button covers.

Additionally, the case features an opening camera cover that can easily be transformed into a functional stand, e.g., for watching movies.

The built-in ring compatible with wireless MagSafe technology ensures maximum charging efficiency and a quick and easy connection to all MagSafe-enabled accessories.

The case is perfectly fitted and does not restrict wireless charging capabilities. The slightly raised form of the frame around the camera and screen protects it from scratches, lifting the phone just above flat surfaces.

Supcase Unicorn Beetle XT is a case that has undergone drop tests, 26 times from a height of up to 1.2m, thus receiving the American military certification MIL-STD 810G-516.6.
