

SZKŁO PRYWATYZUJĄCE TECH-PROTECT QUICK SET SPY+ 2-PACK IPHONE 16 PRO MAX PRIVACY

Product code: 5906302318858

EAN: 5906302318858

The Tech-Protect Quick Set Spy+ 2-Pack privacy glass is an innovative solution that provides maximum privacy protection while using your device. The special filtering technology ensures that the screen content is visible only to the user looking directly at the display, while those observing from the side see only a black screen.

The glass combines two key functions - privacy protection and full display protection against scratches, cracks, and impacts. Made from tempered glass with the highest hardness of 9H, it ensures excellent image quality without affecting the responsiveness of the touch screen.

The set includes two protective glasses and a special installation frame that guarantees perfect positioning and application of the glass without air bubbles. This comprehensive installation system eliminates typical problems associated with applying tempered glass, ensuring a professional result on the first try.

An ideal solution for individuals working with confidential data, traveling on public transport, or simply valuing their privacy in public places.

* Due to the various edge milling of displays, after installing the protective film/glass on the screen, a delicate air halo may form around the screen. This is a natural situation and depends on the screen itself.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can position it using the positioning frame from the set.
- 4) Remove air bubbles by firmly pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.
