

SZKŁO HARTOWANE TECH-PROTECT EASY SET+ 2-PACK HUAWEI WATCH GT 5 PRO (46 MM) CLEAR

Product code: 5906302318964

EAN: 5906302318964

Tech-Protect Easy Set+ is a tempered coating for the display made of lightweight and milled glass with a thickness of 0.3mm. The crystal-clear glass ensures image clarity, perfect color saturation reproduction, and does not interfere with touch sensitivity. Additionally, it is coated with a high-quality oleophobic layer that minimizes the amount of fingerprints or other contaminants left behind.

The protective lens cover is made of high-quality tempered glass with a hardness of 9H. Precisely cut, it provides protection against scratches and breakage.

The set includes installation accessories along with a positioning frame, making installation very easy and accessible to literally everyone.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a bath - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Apply the installation frame with the glass onto the watch screen - the glass will be perfectly centered. Remove the protective film from the top of the glass, then press the glass with your finger in the center of the screen to start the adhesion process.
- 4) Remove the installation frame. Get rid of air bubbles by pressing the entire surface in circular motions for several dozen seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Hardness 9H
- Cut to the flat part of the display
- Milled 2.5D edges that feel nice to the touch
