

RINGKE USB 3.2 GEN 2X2 TYPE-C CABLE PD 240W 200CM BLACK

Product code: 8809961785078

EAN: 8809961785078

Next-generation cable that allows you to charge and transmit video with sound simultaneously. A solid and durable Ringke USB 3.2 Gen cable that will allow you to quickly, and above all safely, charge all devices with a USB-C connector.

Thanks to the latest USB 3.2 Gen 2x2 technology and Thunderbolt 3 support, it offers exceptionally fast data transfer speeds of 20 Gb/s. Such ultra-bandwidth translates to express data transfer between compatible devices.

With a maximum output power of 240W and PD3.1 fast charging technology, charging devices is very efficient. Thanks to the intelligent E-marker chip, power delivery is automatically optimized, ensuring safe and effective charging.

The device is designed for durability and reliability. The durable high-density nylon coating and solid connectors and joints are carefully designed to meet the needs of even the most demanding users while maintaining excellent quality. Moreover, the high-strength braided nylon cable does not tangle and can withstand loads of up to 25 kg, ensuring its reliability even with intensive use.

Additionally, it offers comprehensive protections, including over-voltage, over-current, and overheating protection. It also provides automatic shutdown in case of detected abnormalities. This allows the cable to be used without concerns for device safety.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Precisely made
- Charges and transmits video with sound
- Connector standard: USB-C Thunderbolt 3, PD3.1
- Maximum charging current: 5A/20V
- Speed: 20 Gb/s
- Power: 240W (Max)

- Video transmission up to 4K 60hz
- Features a durable construction
- Length: 200cm

SET INCLUDES:

1 x Ringke USB 3.2 Gen Cable
