

TECH-PROTECT SILICONE MAGSAFE IPHONE AIR PINK PEARL

Product code: 5906302330225

EAN: 5906302330225

Tech-Protect Silicone Magsafe is an elegant and functional case made of soft yet durable thermoplastic material, perfectly combining protection and minimalism.

Thanks to its thin construction, the case remains ultra-lightweight, adding no unnecessary burden or bulk to your smartphone. It also maintains full access to Magsafe wireless charging features, allowing you to take advantage of the latest solutions.

Perfectly fitted, it ensures that the phone not only stays protected from accidental damage but also fits better in your hand, providing a secure and stable grip. The minimalist design of the case allows you to fully enjoy the aesthetics of your device without overwhelming it with additional details. The high-quality case combined with an internal microfiber finish provides top-level protection for the phone.

An additional advantage of the case is the slightly raised form around the camera and screen, ensuring that these most vulnerable parts of the phone are adequately protected from scratches. The phone is lifted just above flat surfaces, minimizing the risk of scratches when you place the device on hard surfaces.

PRODUCT FEATURES:
