

TECH-PROTECT ULTRABOOST DNA MAGTWIST TYPE-C CABLE PD 100W / 5A 200CM IRON GREY

Product code: 5906302331871

EAN: 5906302331871

The Tech-Protect UltraBoost DNA cable is an efficient and sturdy accessory designed for fast charging and reliable data transmission. Equipped with a USB-C – USB-C interface, it supports Power Delivery standards of up to 100W, allowing for rapid and safe charging of smartphones, tablets, and laptops that require high power. The cable also enables data transfer at speeds of 480 Mbps (60 MB/s), ensuring convenient file and multimedia sharing.

Made from high-quality TPE and reinforced aluminum, it features exceptional durability and resistance to damage. Its greatest asset, however, is the innovative MagTwist technology, which is a magnetic self-retracting design. The built-in magnets in the cable's structure allow it to automatically form a neat, tidy loop. This means it always looks aesthetically pleasing, takes up minimal space, and is ready to use at any moment. No more tangled wires and mess – you can roll it up in seconds and unroll it with one motion. This practical solution is perfect for work, travel, and everyday use.

The Tech-Protect UltraBoost DNA MagTwist is a cable that combines speed, safety, and exceptional durability, making it an indispensable accessory for the most demanding users.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Precisely made
- MagTwist technology
- Power Delivery technology: 100W
- Data transfer: 480 Mb/s
- Fast charging function
- Durable construction
- Connector standard: USB-C
- Length: 200 cm

SET INCLUDES:

1 x Tech-Protect UltraBoost DNA Cable
