

KLATKA FARADAYA TECH-PROTECT KLR300 POUCH KEYLESS RFID SIGNAL BLOCKER CASE BLACK/BLACK

Product code: 5906302330980

EAN: 5906302330980

The Tech-Protect KLR300 Faraday Cage is an advanced case designed to protect keyless car keys from theft using the 'signal extension' method. The case effectively blocks radio signals, preventing unauthorized access to the vehicle.

Easy insertion and removal of the key from the case make it quick and hassle-free to use. Inside, there is a convenient chain with a ring to which the key can be attached, providing additional security and user comfort.

Made from durable materials, the case ensures long-lasting use and resistance to damage. Its compact design allows for easy storage in a pocket or bag, offering convenience in carrying. The product is universal, fitting most keyless car keys. An ideal solution for those who want to secure their vehicles against modern theft methods. The product provides protection only within the appropriate distance starting from 80cm from the car.
