The SmartCase Pen from Tech-Protect is a case that will protect your device from all sides. Lightweight, matte yet durable silicone case has appropriately molded places for buttons and cutouts for ports and camera.

Thanks to the use of a foldable cover on the front of the case, we gain protection for the display, and with the wake and sleep technology, we can ensure a slightly longer battery life. The case can also serve as a stand for more comfortable use of the device.

The case has a dedicated slot for the stylus.
