The SmartCase Pen from Tech-Protect is a case that will protect your device from all sides. The lightweight, matte yet durable silicone case features appropriately molded spots for buttons and cutouts for ports and the camera.

Thanks to the use of a foldable cover on the front of the case, we gain protection for the display, and with the wake and sleep technology, we can ensure a slightly longer battery life for the device. The case can also serve as a stand for more comfortable use of the device.

The case has a dedicated slot for the stylus.
