Product code: 8809811851243-AGL03387

EAN: 8809811851243

Tempered glass with a revolutionary installation method - if you have been scared of this aspect when using tempered glass, your problems have just been solved!

The tempered glass from the AlignMaster series by Spigen is secured with a perfectly cut mounting frame for the front of the phone, allowing you to position it perfectly on the screen. The manufacturer has simplified the installation process to such an extent that it is fully intuitive for every user.

Glass FC AlignMaster is a product perfectly matched to the display of your device equipped with a case. Full Cover, also known as Case Friendly, means that the glass is cut in such a way that it will not be snagged by the case, preventing accidental peeling off of the glass.

The tempered glass with a thickness of 0.3mm has a surface hardness of 9H, which is nearly the maximum score for scratch resistance that can be achieved.

An additional oleophobic coating prevents excessive fingerprints or other contaminants from being left, as well as protects against additional scratches.

The minimalist design with precise cutouts and crystal clear transparency provides an amazing immersion with the device, making it easy to forget that we have glass on it, which gives us additional protection.

See how to install:

https://www.youtube.com/watch?v=1Au-ERS_sXo&ab_channel=FlavourDesign

* The glass has the widest possible Case Friendly die, meaning it will be compatible with most cases on the market and with every case from Spigen.

** Due to the various milling of display edges, after installing the protective film/glass on the screen, a delicate air halo may form around the screen. This is a natural situation and depends on the screen itself.

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it will not interfere with your installation.
- 2) Clean and degrease the screen surface thoroughly, then polish it to a shine with a dry cloth.

3) Place the positioning frame on the front of the phone

4) Stick the glass and remove air bubbles by pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Hardness 9H
- 2.5D milled edges that feel nice to the touch
- Additional oleophobic layer
- Ideal transparency
- Does not affect touch functionality
- Dimensions: 143 x 68mm

SET INCLUDES:

- 2 x Spigen Glass FC AlignMaster
- 2 x Installation kit
