Esr Digital+ Magnetic is an incredibly versatile tool designed for use with Apple iPad. The stylus is perfect for everyday use as well as for graphic editing or drawing. The thin tip (2mm) is extremely sensitive and precise, allowing for accurate drawing; to adjust the line thickness, simply tilt the pencil. The stylus features a lightweight and ergonomic design that enhances comfort during use on the iPad, and thanks to its magnetic properties, you can always keep it with you.

The accessory is incredibly easy to use. It is activated by a button located at the end of the stylus, and a double tap prevents accidental shutdown. Additionally, this practical gadget is equipped with a battery-saving function - the accessory will turn off after 20 minutes of inactivity. The stylus also has a built-in LED that indicates the battery level and the device's operating mode.
