TECH-PROTECT MM15W-V1 MAGNETIC MAGSAFE DASHBOARD & VENT CAR MOUNT WIRELESS CHARGER 15W BLACK

Product code: 9490713931073

EAN: 9490713931073

Tech-Protect MM15W-V1 is a combination of a convenient car mount and a super-fast wireless charger supporting MagSafe technology with a maximum power of 15W.

Strong magnets automatically align the phone with the mount, keeping it in a stable and secure position while driving, even in difficult conditions. Convenient and easy to use, it allows for the smartphone to be used in both vertical and horizontal positions, and the solid, adjustable-length arm combined with the rotating head provides adaptability and comfort of use.

High-quality ABS and PC components guarantee long-lasting use.

An ideal solution for the undecided - two interchangeable tips allow for mounting on both the dashboard or windshield as well as in the air vent.

Installing the mount to the dashboard is extremely simple; just degrease the area where you want to stick the accessory, tighten the lever, and you're done! To maintain the sticky properties of the suction cup, it should be washed under running water before reinstallation.

The hook-like mounting clip allows for attachment to any vent in the car.

* The MagSafe magnetic function works only directly with the phone or with a case that has a built-in magnetic eye for MagSafe use.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Strong and stable phone grip
- Functional and stable
- Input voltage: 5V/2A, 9V/2A, 12V/1.5A
