TECH-PROTECT V5 UNIVERSAL DASHBOARD & VENT CAR MOUNT BLACK

Product code: 9490713933909

EAN: 9490713933909

The universal car mount from Tech-Protect is a functional alternative for undecided users. This reliable accessory can be mounted on the dashboard, windshield, or air vent and features an adjustable, telescopic arm and a 360-degree rotating head to provide users with even more options for displaying and using their smartphones while driving.

V5 has all the standard features and provides a safe and stable solution for all smartphones. The accessory also utilizes a strong grip with a clamping mechanism and an adjustable arm span that allows for fitting phones with widths from 53mm to 95mm. The jaws of the mount are finished with a non-slip silicone pad, effectively protecting the device from scratches and additionally strengthening the grip.

Installation is extremely simple; just degrease the area where you want to stick the mount, tighten the lever, and you're done!

To maintain the sticky properties of the suction cup, it should be washed under running water before reinstallation.

An additional hook-shaped mounting tip allows for attachment to any vent in the car.
