## TECH-PROTECT QI15W-A27 3IN1 MAGNETIC MAGSAFE WIRELESS CHARGER BLACK

Product code: 9490713934586

EAN: 9490713934586

The Tech-Protect Qi15W-A27 3-in-1 charger is a versatile device that allows you to charge three different devices simultaneously. With MagSafe technology, you can charge your MagSafe-compatible smartphone without the need to plug in a cable.

Not only the phone, but also the Apple Watch can be charged using the A27. Just place it on the specially designed stand and connect wirelessly to charge the watch's battery.

Additionally, the device supports headphones with wireless charging capabilities, such as Apple AirPods or Samsung Galaxy Buds. Simply place the case with the headphones on the charging surface, and the charging process will automatically start.

Another practical feature is the built-in LED light. It provides subtle illumination that makes it easier to locate the accessory in the dark.

The A27 not only allows for recharging three devices simultaneously but also has the function of powering each device separately. This gives you full control over the charging of individual devices, allowing you to optimize charging time.

The built-in security system protects your devices from overheating, short circuits, and other potential hazards associated with charging. You can be assured that your devices are safe and secure while using this charger.

\* To fully utilize the capabilities of the induction charger, we recommend connecting it to a power adapter with an output power of 35W (V\*A) or more.

\*\* The MagSafe magnetic function works only and exclusively directly with the phone or with a case that has a built-in magnetic eye for MagSafe use.
