TECH-PROTECT NC30W 3-PORT NETWORK CHARGER PD 30W QC3.0 BLACK

Product code: 9490713935231

EAN: 9490713935231

The Tech-Protect NC30W network charger is a reliable and versatile accessory that works perfectly for everyday use, whether at home, in the office, or while traveling. With its advanced features, it enables fast and safe charging of multiple devices simultaneously, adapting to their specifications. Equipped with two USB-C ports (PD30W) and one USB-A port (QC3.0), it allows for simultaneous charging of various accessories.

Thanks to the Power Delivery (PD) technology implemented in the USB-C ports, the charger allows for fast charging of most smartphones, tablets, and other devices that support this technology.

It is also worth noting that the NC30W charger supports PPS (Programmable Power Supply) mode, allowing you to adjust the charging voltage to the specific requirements of the device, which contributes to optimizing the charging process and increasing battery efficiency.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Small and ergonomic shape
- Smart and fast charging
- Input voltage range: 100-240V 50/60Hz 0.8A Max
- USB-C1/C2 output: USB-C1: 5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (30W Max)
