TECH-PROTECT KEVLAR PRO GALAXY TAB S9+ PLUS S10+ PLUS 12.4 X810 X816B X826B BLACK

Product code: 9319456605457

EAN: 9319456605457

Tech-Protect Kevlar Pro is a rugged series of cases that will protect your device from all angles in any conditions. The case is designed based on an advanced hybrid construction, making it perfectly fitted and lightweight.

The two-part housing combines a hard shell that goes on the back, made from PC coating, and shock-resistant TPU. Additional reinforcement in the corners - protective air cushions - effectively absorb every fall. The front of the device is surrounded by a frame with an integrated polycarbonate cover. This solution effectively separates the display, protecting it from scratches.

Raised edges protect the lens and display of your device from damage, and the non-slip finish is another advantage of the Kevlar Pro.

Another feature worth mentioning is the kickstand. The easy-to-use leg serves as a functional stand. The case is equipped with a dedicated slot for the stylus.

Kevlar Pro has a military certification MLT-STD-810G, which means that the product has undergone specialized durability tests and meets strict user requirements.

How to check if the accessory fits your Samsung Galaxy Tab?

It's simple, check the model number of your device, which starts with the letter T or X. Our accessories are perfectly fitted and fully compatible with: X810 / X816B / X826B.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Lightweight construction
- Integrated polycarbonate screen protector
- Foldable kickstand
- Dedicated space for the stylus
- Provides extreme protection against falls
- Perfectly fitted
