

RINGKE USB 3.2 GEN 2X2 TYPE-C CABLE PD 240W 100CM BLACK

Product code: 8809961785061

EAN: 8809961785061

Next-generation cable allowing you to charge and transmit image with sound simultaneously. A solid and durable Ringke USB 3.2 Gen cable that allows you to quickly, and above all safely, charge all devices with a USB-C connector.

Thanks to the latest USB 3.2 Gen 2x2 technology and Thunderbolt 3 support, it offers exceptionally fast data transfer speeds of 20 Gb/s. Such ultra bandwidth translates to express data transfer between compatible devices.

With a maximum output power of 240W and PD3.1 fast charging technology, charging devices is very efficient. Thanks to the intelligent E-marker chip, power delivery is automatically optimized, ensuring safe and effective charging.

The device has been designed with durability and reliability in mind. The durable high-density nylon coating and solid connectors and joints have been carefully designed to meet even the most demanding users while maintaining excellent quality. Moreover, the high-strength braided nylon cable does not tangle and can withstand a load of up to 25 kg, ensuring its reliability even with intensive use.

Additionally, it offers comprehensive protections, including overvoltage, overcurrent, and overheating protection. It also provides automatic shutdown in case of detected anomalies. This allows the cable to be used without concerns for device safety.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Precisely made
- Charges and transmits image with sound
- Connector standard: USB-C Thunderbolt 3, PD3.1
- Maximum charging current: 5A/20V
- Speed: 20 Gb/s
- Power: 240W (Max)

- Image transmission up to 4K 60hz
- Has a durable construction
- Length: 100cm

SET INCLUDES:

1 x Ringke USB 3.2 Gen Cable
