

## TECH-PROTECT C2S ROPE CROSSBODY STRAP BLACKGOLD

Product code: 5906302312061

EAN: 5906302312061

The Tech-Protect C2S CrossBody strap is an elegant and functional accessory that is perfect for everyday use.

Equipped with an adapter that we place on the inside of the case, it allows for safe and convenient carrying of the phone. Thanks to the adjustable length of the cord, we can sling the phone over our shoulder or carry it in our hand, adapting the way we use it to our needs.

The C2S can serve as a stylish phone lanyard, but it also works great as an accessory for keys or a backpack, adding a modern look to the whole.

\*Two adapters are included in the set.
