Crystal clear screen protector covering the entire surface of the screen. Made from high-grade urethane polycarbonate, it has scratch resistance, effectively protecting the screen from damage. The film perfectly reproduces displayed colors and has a special anti-fingerprint coating that protects the screen from leaving fingerprints.

An additional advantage is the ability to fit most cases available on the market - no more problems matching the case to the screen protection used!

Installing the film is extremely easy and accessible to every user, as the film has been designed to not leave air bubbles after application.

### **INSTALLATION INSTRUCTIONS:**

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
