TECH-PROTECT WL-09 UNIVERSAL TRAVEL ADAPTER FROM EU WHITE

Product code: 5906302380459

EAN: 5906302380459

The Tech-Protect Universal Travel Adapter is an essential accessory that provides access to electricity for devices from almost all over the world. Thanks to its universal design, it allows you to connect devices with US, UK, AU, FI, CN-1, CN-2 plugs to a European socket, eliminating the need to purchase several different adapters. It supports the most popular plug standards, making it an ideal solution.

With a maximum power of 2500 W and a voltage of up to 250 V~, the adapter easily handles high-energy devices such as laptops, hair dryers, or smartphone chargers. Advanced safety features protect connected devices from surges and overheating, ensuring safe usage.

The compact and lightweight design makes the adapter easy to pack and does not take up much space in your luggage, making it perfect for both short trips and longer journeys. Made from high-quality materials, it is resistant to mechanical damage, ensuring its long lifespan.
