TECH-PROTECT FLEXAIR CHAIN MAGSAFE IPHONE 16 GREY & PINK

Product code: 5906302380206

EAN: 5906302380206

An even more stylish design and a high level of protection are synonyms for the new FlexAir Chain MagSafe case from Tech-Protect. The case is made from TPU and PC. The flexible frame made of polyurethane material perfectly protects against shocks and falls, while the hard polycarbonate back protects your phone from scratches.

Compatibility with MagSafe technology makes using the device even easier and more convenient. You can charge your device without any issues and use various MagSafe accessories.

The slightly raised form of the case around the camera and screen protects against damage, lifting the phone just above a flat surface.

An additional functionality is provided by the attached lanyard, allowing you to comfortably carry the phone around your neck or shoulder. With this solution, you always have quick and easy access to your device, which is extremely practical for everyday use.
