TECH-PROTECT N58 MAGNETIC MAGSAFE DASHBOARD & VENT CAR MOUNT BLACK

Product code: 5906302360888

EAN: 5906302360888

The Tech-Protect N58 car mount is an innovative solution utilizing the MagSafe mounting system. Strong magnets provide instant installation and removal of the smartphone, ensuring stable holding during driving.

The product features a solid construction with an adjustable arm and a 360-degree rotating head, allowing the user to adjust the device's position to their preferences. The compact dimensions of the N58 do not obstruct visibility, and the elegant design harmoniously blends with the interior of any vehicle.

Installation of the mount is intuitive thanks to the lever mechanism and gel suction cup. The accessory can be mounted on the dashboard or windshield - just clean the surface, press the suction cup, and tighten the lever. To maintain the suction cup's adhesion, it should be rinsed with water before each relocation.

The N58 mount also offers a universal tip for mounting to car air vents, thus increasing its functionality.

* The magnetic MagSafe function works exclusively directly with the phone or with a case that has a built-in magnetic loop for MagSafe use.
