## SZKŁO PRYWATYZUJĄCE TECH- PROTECT GLASS SPY+ 2-PACK IPHONE 13 13 PRO 14 16E 17E PRIVACY

Product code: 5906302360130

EAN: 5906302360130

The Tech-Protect Glass Spy+ tempered glass is an excellent solution for users who value privacy and the security of their data. The applied privacy technology limits screen visibility for bystanders, protecting against unauthorized access, which contributes to increased confidentiality of our conversations and messages.

The Tech-Protect Glass Spy+ also provides excellent protection for the display against scratches, impacts, and dents, ensuring that the phone remains in excellent condition for a long time. Its hardness level is rated by the manufacturer at 9H on a ten-point scale. It does not affect touch sensitivity or the saturation of displayed colors. Additionally, it is covered with a high-quality oleophobic coating, minimizing the amount of fingerprints left behind.

It is also worth noting the incredible smoothness of touch, which positively affects the comfort of using the phone.

Moreover, the easy installation procedure makes it accessible for anyone, even those inexperienced in installing glass.

\* Remember to remove and re-add fingerprints after installing the glass - if they are present.

\*\* Due to the various milling of display edges, after installing any glass, a delicate air halo may form around the screen. This condition results from the milling of the screen in the specific unit.

**See how easy it is:** [https://www.youtube.com/watch?v=IsYwftNECY&ab\\_channel=FlavourDesign](https://www.youtube.com/watch?v=IsYwftNECY&ab_channel=FlavourDesign)

### **INSTALLATION INSTRUCTIONS:**

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Install the coating as evenly as possible - you can position it using two small pieces, sticking them to the side of the device.
- 4) Remove air bubbles by pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as tightly as possible.

**PRODUCT FEATURES:**

- 100% Original
- Packed in original packaging
- Hardness 9H
- 2.5D milled edges that feel nice to the touch
- Additional oleophobic layer
- Perfect clarity
- Privacy function
- Does not affect touch functionality
- Easy installation
- Dimensions: 144 x 68 mm

**SET INCLUDES:**

- 2 x Tech-Protect Glass Spy+
- 2 x Installation kit
