## ESR GEO DIGITAL STYLUS PEN WHITE

Product code: 4894240252215

EAN: 4894240252215

ESR Geo Digital Stylus is an advanced tool for drawing and writing, distinguished by its functionality and innovative solutions. One of its key features is the built-in location function via Apple Find My, which allows the stylus to be easily found even if it gets lost. Just use the app, and the stylus will emit a sound, helping in its retrieval. An additional convenience is the shortcut button, which enables quick switching between the home screen and multitasking view. With it, you can also check the battery level in real-time.

The stylus features extremely fast charging – a full charge takes only 30 minutes, ensuring efficient operation for a longer time. High precision in drawing is thanks to the modern processor, which guarantees lag-free performance and allows for creating detailed lines without interruptions. The tilt detection function enables drawing at various angles, giving artists and users greater freedom in creation. The stylus is also equipped with a palm rejection feature, allowing for comfortable hand resting on the screen without the risk of disrupting the work.

ESR Geo Digital Stylus is an excellent choice for those seeking precision, comfort, and advanced features while working with touch devices.
