TECH-PROTECT PB14 LIFEMAG MAGSAFE POWER BANK 5000MAH SPACE GREY

Product code: 5906302362783

EAN: 5906302362783

Tech-Protect PB14 LifeMag MagSafe is a compact and functional device designed for smartphone users equipped with MagSafe technology. Thanks to the magnetic attachment, it allows for convenient and safe wireless charging with a power of up to 7.5W. The power bank has a battery capacity of 5000 mAh. The PB14 is equipped with a USB-C port, which allows for fast charging of both the power bank itself and other devices.

The built-in pop-up stand allows for convenient positioning of the phone in both horizontal and vertical positions – an ideal solution for watching videos or making video calls hands-free. The casing made of durable ABS and polycarbonate materials ensures resistance to everyday wear, while the built-in security systems protect against overvoltage, overcharging, and overheating.

The modern, minimalist design and small size make the PB14 perfect for both travel and everyday use.

* The MagSafe magnetic function works only and exclusively directly with the phone or with a case that has a built-in magnetic eye for MagSafe applications.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Elegant
