ESR CLASSIC HYBRID MAGSAFE & TEMPERED GLASS IPHONE 17 CLEARBLACK

Product code: 4894240288580

EAN: 4894240288580

The Classic Hybrid from ESR is a one-piece case made of a transparent layer of acrylic that wraps around the edges and back of the phone, along with a durable frame made of thermoplastic, soft material that additionally protects the device from drops. The components, due to their properties, will provide good protection against potential everyday use accidents.

The Classic Hybrid is equipped with a ring compatible with wireless MagSafe technology. The magnetic ring ensures maximum charging efficiency and a quick and easy connection with all MagSafe-compatible accessories.

The case features a special protective button that works with camera control. It is touch-sensitive, ensuring full responsiveness and user comfort.

Additionally, the manufacturer has included high-quality tempered glass in the set. This is an ideal way to protect the screen from scratches and impacts. It has a thickness of 0.3mm and a hardness of 9H, which is sufficient to effectively protect the display while providing high resistance of the glass itself to superficial scratches. It is also coated with an oleophobic layer that reduces the degree of fingerprint smudging.

The included installation accessories along with the positioning frame make installation very easy and accessible to literally everyone. The frame allows for perfect positioning of the cover with the screen, and the other accessories serve to mount without bubbles and dirt - installing this type of product on such a large screen area has never been simpler!

INSTALLATION INSTRUCTIONS:

- 1) Start the installation in the bathroom right after a shower - the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
- 2) Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth.
- 3) Install the cover as evenly as you can - you can position it using the positioning frame from the set.
- 4) Remove air bubbles by firmly pressing the entire surface in circular motions for several seconds. Do this so that the adhesive layer bonds with the screen as strongly as possible.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Elegant
- Minimalist design
- Slim shape
- Lightweight
- Precisely made
- Compatible with MagSafe technology
- Perfectly fitted
- Easy to install and remove
- Dimensions: 146 x 68 mm

SET INCLUDES:
