## SPIGEN PARALLAX "S" MAG MAGSAFE IPHONE 17 PRO MATTE BLACK

Product code: 8800283310931-ACS09964

EAN: 8800283310931

The functional Spigen Parallax "S" MagSafe case with a stand is the perfect combination of style and practicality for users looking for solid protection for their smartphone. Made from high-quality TPU material, it offers flexibility and ease of installation while providing reliable protection against drops and scratches.

The built-in foldable stand is a practical solution for those who often watch movies or make video calls. The discreet design of the stand ensures that when folded, it does not affect the comfort of using the phone, while when unfolded, it allows for convenient positioning of the device at an optimal angle in both horizontal and vertical orientations.

The back of the case is adorned with a distinctive geometric pattern that gives the device a modern look and improves grip thanks to its anti-slip texture. The raised edges around the screen and camera protect the most important elements of the phone from direct contact with surfaces, while precisely cut openings provide full access to all ports and buttons without the need to remove the case.

The case is fully compatible with MagSafe technology, allowing for seamless use of wireless charging and magnetic accessories.
