SZKŁO HYBRYDOWE TECH-PROTECT GLASS FLEX+ 2-PACK GARMIN VENU 2S BLACK

Product code: 5906302368778

EAN: 5906302368778

Tech-Protect Glass Flex+ is a revolutionary hybrid glass that provides maximum screen protection without compromise. Its ultra-thin design, with a thickness of just 0.28 mm, makes it practically invisible while being extremely durable. Thanks to the ceramic coating with a hardness of 7H, it effectively protects against scratches and pressure, maintaining perfect clarity and full touch sensitivity. The biggest advantage? It doesn't crack or shatter like traditional tempered glass!

Tech-Protect Glass Flex+ is the perfect solution for those who value complete safety without compromise.

INSTALLATION INSTRUCTIONS:

1. The installation of this model of glass differs from traditional tempered glasses that are applied to a thin adhesive layer. Due to the thicker layer of glue, the process is somewhat more demanding and requires precision.
2. Thoroughly clean the watch screen. Use a damp cloth to remove any dirt and fingerprints. Then wipe the screen with a dry, soft cloth to completely remove moisture. Finally, use cleaning stickers (dust stickers) to get rid of dust particles.
3. Carefully remove the protective film from the adhesive layer. Precisely align the glass with the screen and gently apply it.
4. If any edge does not adhere properly, the glass was probably applied unevenly. In this case, it should be peeled off and reapplied until the desired effect is achieved.
5. Remove air bubbles by gently pressing the glass from the center towards the edges. Use your finger or a soft cloth to push the air outwards.
6. Due to the specific nature of the glass (polishing, milling), fitting may require a few minutes of work. After proper installation, the final effect is aesthetic and durable.

PRODUCT FEATURES:

- 100% Original
- Packed in original packaging
- Surface hardness 7H
- Thickness 0.28mm

- Maintains full touch sensitivity
- Precisely fitted
- Dimensions: ø 36 mm

SET INCLUDES:

- 2 x Tech-Protect Glass Flex+
- 2 x Installation kit
