SPIGEN ULTRA HYBRID PRO MAG MAGSAFE GALAXY Z FOLD 7 CLEARWHITE

Product code: 8800283303810-ACS09546

EAN: 8800283303810

Spigen Ultra Hybrid Pro MagSafe is an advanced protective case designed for users who value modern design and reliable protection, without compromising on style or functionality.

The construction combines flexible TPU material, which effectively absorbs shocks, with a hard polycarbonate panel that is resistant to scratches and mechanical damage. This way, the case not only strengthens the entire structure but also protects it from the effects of everyday use.

The case is precisely fitted to the device, providing easy access to all ports, buttons, and functions. The special integrated hinge design supports the natural bending of the phone, protecting its delicate structure while ensuring smooth use in any position.

With modern accessory users in mind, the case is enhanced with a built-in MagSafe ring, which provides a quick and stable connection to chargers and accessories compatible with Apple MagSafe technology. The magnetic system guarantees a perfect fit and maximum charging efficiency – without the need to remove the case.

PRODUCT FEATURES:
