Stylish and simple design along with a high level of protection are the hallmarks of the new Magmat MagSafe case from Tech-Protect. The case is made from high-quality TPU and PC components. The flexible polyurethane frame perfectly protects against shocks and drops, while the hard polycarbonate back protects your phone from scratches.

The classic, transparent finish provides a unique look for your smartphone.

The slightly raised form of the case around the camera and screen protects against damage by lifting the phone just above flat surfaces.
