TECH-PROTECT MAGMAT XT 4-SET MAGSAFE IPHONE 17 PRO MAX MATTE BLACK

Product code: 5906302330041

EAN: 5906302330041

Stylish, modern design and a high level of protection are the hallmarks of the Tech-Protect Magmat XT case. The case is made from a combination of high-quality materials: a flexible TPU (polyurethane) frame and hard polycarbonate back. This combination provides effective protection against drops, shocks, and scratches while maintaining a slim profile.

The transparent finish highlights the original look of the smartphone, and the slightly raised edges around the camera and screen further protect them from damage when in contact with flat surfaces.

The XT model also features colorful, designer button covers that allow you to personalize the case according to your style – the set includes as many as four different color variants to choose from.

The case is equipped with an integrated magnetic ring, making it fully compatible with MagSafe accessories. It allows for convenient and safe use of various accessories, such as chargers, car mounts, wallets, or stands – without the need to remove the case.
