## SZKŁO HARTOWANE TECH-PROTECT QUICK SET+ 2-PACK IPHONE 15 PRO BLACK

Product code: 5906302318810

EAN: 5906302318810

The Tech-Protect Quick Set+ tempered glass is a top-quality screen protection that combines durability, convenience, and modern technology. Made from 9H hardness glass, it provides exceptional resistance to impacts and scratches. Thanks to the innovative installation system with a mounting frame, applying the glass is incredibly quick, precise, and hassle-free – without the risk of air bubbles and exposure to dust.

The crystal-clear surface guarantees excellent image quality and exceptionally smooth touch sensations. The special oleophobic coating effectively reduces fingerprints and facilitates water beading on the glass surface.

Tech-Protect Quick Set+ is the ideal solution for anyone who expects maximum protection and comfort while using their smartphone.

\* Due to the various edge milling of displays, after installing the protective film/glass on the screen, a delicate air halo may form around the screen. This is a natural situation and depends on the screen itself.

### **INSTALLATION INSTRUCTIONS:**

1. Start the installation in the bathroom right after a shower – the steam will absorb all the dust from the atmosphere and it won't interfere with your installation.
2. Thoroughly clean and degrease the screen surface, then polish it to a shine with a dry cloth. Make sure no dust particles remain.
3. Place the frame with the already mounted glass on the phone – it will ensure precise fitting and facilitate application.
4. Pull the starter film to begin the automatic glass application process on the screen.
5. Press the glass in designated areas. Do this carefully to ensure the adhesive layer bonds well with the surface.
6. Remove the frame and eliminate any air bubbles - you can use the included squeegee to thoroughly push out any remaining air from under the glass surface.

Done! Enjoy the perfectly applied screen protection.
