SPIGEN A611P UNIVERSAL WATERPROOF FLOATING CASE 2- PACK MATTE BLACK

Product code: 8800283301731-ACS09348

EAN: 8800283301731

Spigen A611P is a set of two waterproof protective cases designed for safe smartphone use in water conditions - at the beach, by the pool, during kayaking, or diving. The cases have an IPX8 waterproof certification, which means they provide full protection against water even at depths of up to 30 meters.

Thanks to the special construction with air-filled padding in the frame, each case floats on the water's surface, preventing the device from being lost in case of a fall into the sea or lake. Transparent front and back panels allow full use of touch functions and the camera without the need to remove the smartphone from the case.

The cases are made of durable TPU and PVC materials. The universal size fits most smartphones with screen diagonals of up to about 6.9 inches. The set includes adjustable straps with clips, allowing the case to be worn around the neck or wrist.
